

## Events at the Slutzker Center for International Services

### 25th Anniversary of ECG

Congratulations to Riet DeKleermaeker on the 25th Anniversary of the most successful English Conversation Group program on a university campus! On Friday, 4/26/2013, Syracuse University is celebrating the 25th Anniversary of the English Conversation Group program, which was created and continuously run by Riet DeKleermaeker for 25 years. Students, scholars, and dependents of both student and scholars have enjoyed practicing their spoken English language skills, and learned about American culture, from English speakers within the context of a supportive, friendly environment of the Slutzker Center. Conversation group leaders come from all walks of life: fellow students (especially those who have studied abroad and want to keep their international spirit alive when they return to campus), staff of the University, and community members have all spent years leading one or two hour groups each week during the academic year. A few groups even continue into the summer months!

**This Friday, from 4 to 6 p.m. at the Goldstein Alumni and Faculty Center**, a wonderful celebration of this program will be hosted by the Slutzker Center. Former and current leaders and group members will gather to remember the good times, honor the group leaders (some from as many as 10 years ago!) and even SKYPE with a former ECG member who has returned to China after completing his degree. His ECG leader, Paul Barfoot, communicates via SKYPE every week with his former student, and that will be a highlight of the celebration this Friday!

Any current or former ECG members are most welcome to attend! Please send in your reservation TODAY to [lescis@syr.edu](mailto:lescis@syr.edu). Join the celebration!

### Alumni Connection Vikram Dadwal

Vikram Dadwal came to Syracuse University in 2006 from his home country of India. He graduated in 2008 with an MS in Computer Engineering and now resides in Phoenix, Arizona where he works as a Component Design Engineer for Intel.

“My advice would be to take time do the research on what interests you and how you can utilize the graduate program to reach your goals. Think what you want to do 5 years down the road. Talk to your seniors and consult your professors and alumni since they have already walked the path that you want to walk. Join groups and associations of your interest and connect with like-minded people. Syracuse University’s deep alumni base stretches across various sectors in different fields. So, use it and connect with alums.”
